5b. Patient Appointment Command Center — Page Elements Use Case

Aim:

To design and build an internal Clinic Command Center Page in Zoho Creator for the **Patient Appointment & Scheduling Management** application. The page brings together appointment statistics, department workload, search, quick actions, appointment status tracking, reports, and clinic reference material for front-desk staff and clinic administrators.

Page Elements Used Overview

Page Element	Element Name	Purpose	Placement on Page
Panel	Command_Center_Main_Panel	The main structural panel contains the command-center dashboard.	Outer container wrapping the page.
Board	Appointment Status Board	Displays five appointment categories (Requested, Confirmed, Checked-In, Consulted and Cancelled), with four records in each category in the live preview.	Middle section, above the embedded Kanban report.
Chart	Bar - Appointment_Booking_Form	Horizontal department chart compares appointment volumes across medical departments.	Overview area, beside the circular gauge.
Gauge	Circular appointment gauge	Displays a circular count indicator. The preview shows a value of 1; its metric label is not visible in the supplied screenshot.	Left side of the overview area.
Search	Search patient or phone number	Provides a search box and Search control for patient/phone lookup. Search results were not demonstrated.	Below the gauge and chart.
Form	Appointment_Booking_Form (linked access)	The “Register Walk-in Patient” action is visible. A separate embedded Form Page Builder element is not independently shown.	Quick-action row; embedded-form placement is unverified.
Report	Appointment_Status_Kanban; Appointment_Booking_Report	Embeds the status Kanban and detailed appointment booking report to review records on the same page.	Kanban in the middle; booking report lower down.
Snippets	Clinic_Guidelines_Snippet; Medical_Report_Snippet	Presents patient instructions and a sample medical-report display; both snippet names appear in the Page Builder editor.	Bottom reference area, after the booking report.
Button	Register Walk-in Patient; Send Today’s Appointment Reminders	Two quick-action buttons are visible. Their successful submission or reminder-sending behavior was not tested in the screenshots.	Two separate rows below the Search control.
Widgets	Total Appointments; Patients Checked In Today; Available Doctors	Live statistic tiles show 20 total appointments, 1 patient checked in today, and 8 available doctors.	At the top and above the status board.

Page Element	Element Name	Purpose	Placement on Page
Viewer	Sample medical-report display	A sample medical report is visible at the bottom of the live page. The editor identifies this content as Medical_Report_Snippet; a separate Viewer element is not independently verified.	Bottom display, below Clinic Guidelines.

Page Layout & Section Breakdown

1. Section 1 — Overview Strip

Shows Total Appointments (20), the circular gauge (displayed value 1), and the department bar chart, giving the clinic a high-level view of appointment activity.

2. Section 2 — Search & Quick Actions

Contains the patient-or-phone search field, Register Walk-in Patient button, and Send Today's Appointment Reminders button for front-desk workflows.

3. Section 3 — Operational Status

Presents the Patients Checked In Today (1) and Available Doctors (8) widgets, the five-category Appointment Status Board, and the embedded Appointment_Status_Kanban report.

4. Section 4 — Detailed Appointment Data

Includes the embedded Appointment_Booking_Report for detailed patient and contact information; its live view displays 20 records.

5. Section 5 — Guidelines & Sample Report

Displays the Clinic_Guidelines_Snippet and Medical_Report_Snippet, including the fictional sample medical report marked as training data.

Screenshots:

The screenshots below show the actual Clinic_Command_Center_Page in the Zoho Creator Page Builder and live application preview.

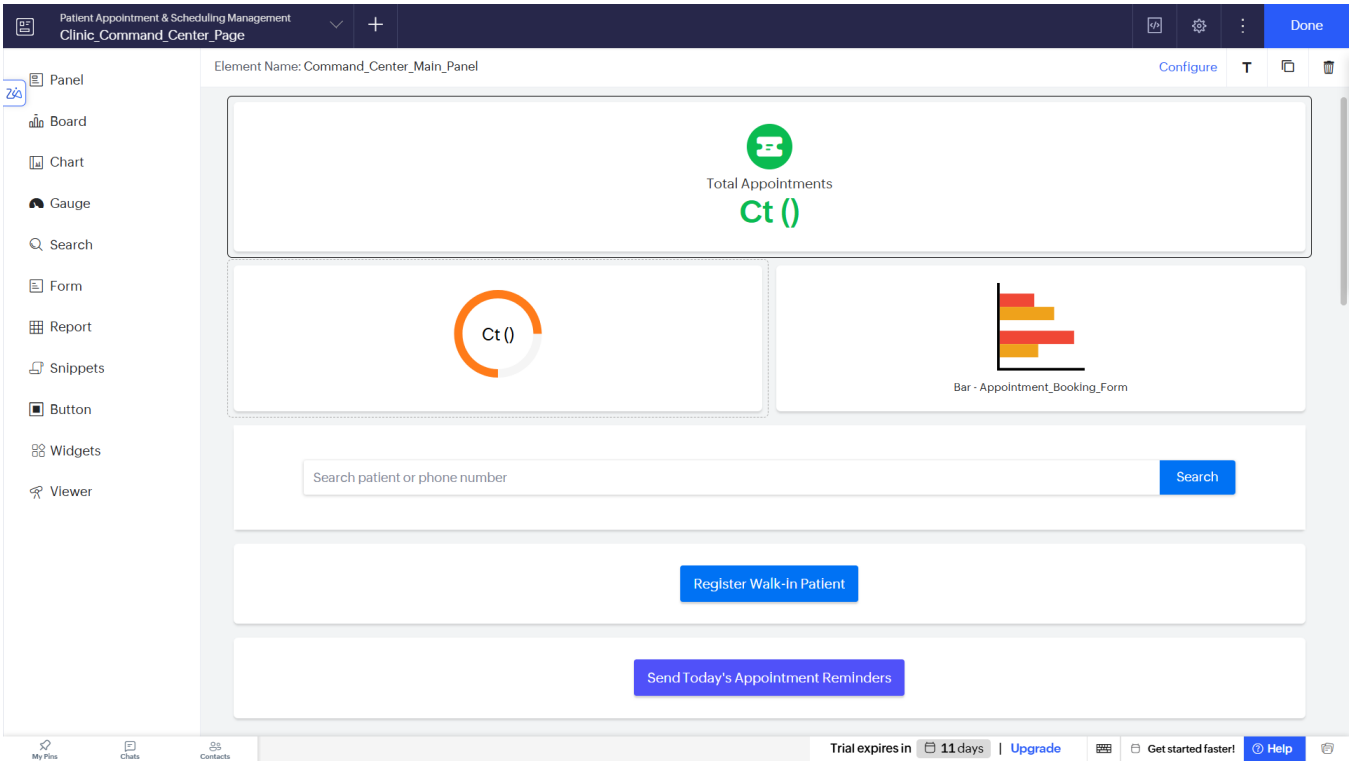

Figure 1. Page Builder: main panel, total appointments, gauge, chart, search, and quick-action buttons.

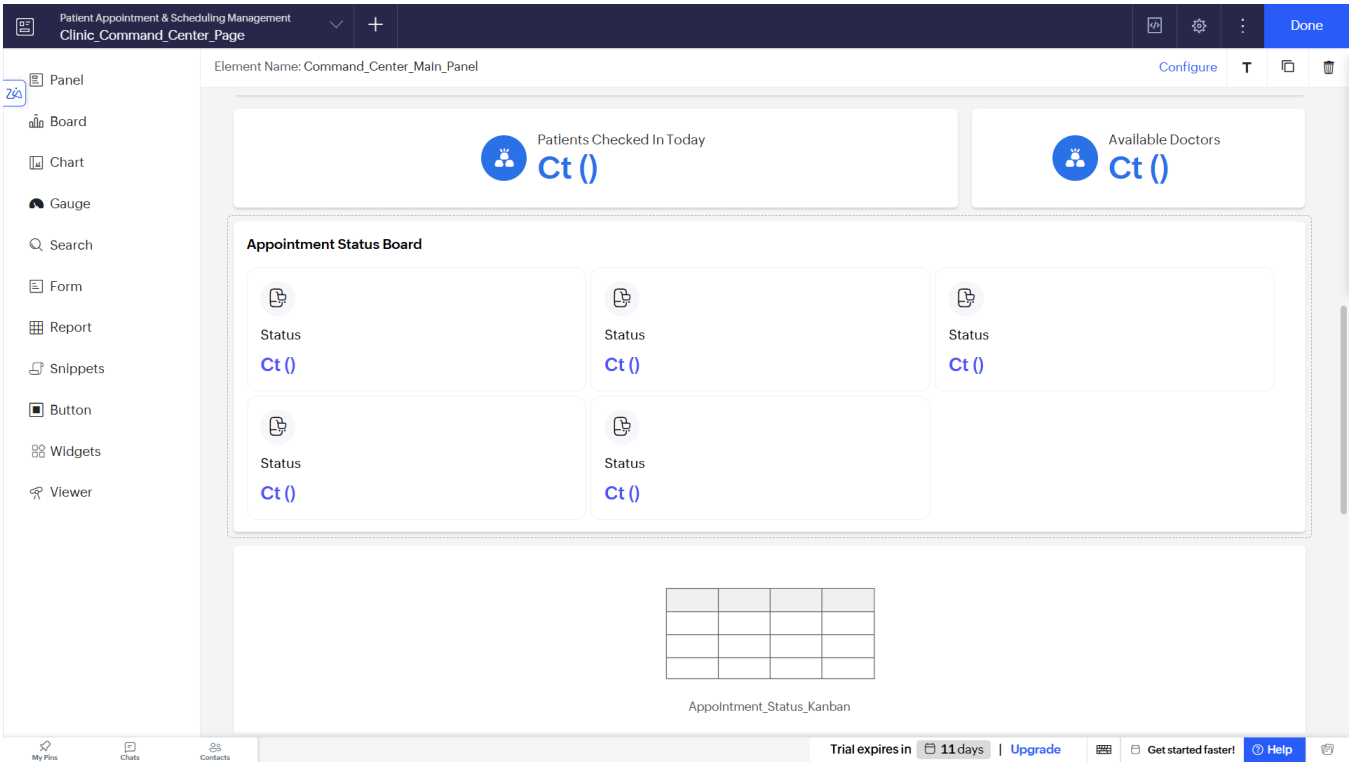

Figure 2. Page Builder: summary widgets, Appointment Status Board, and embedded Kanban report.

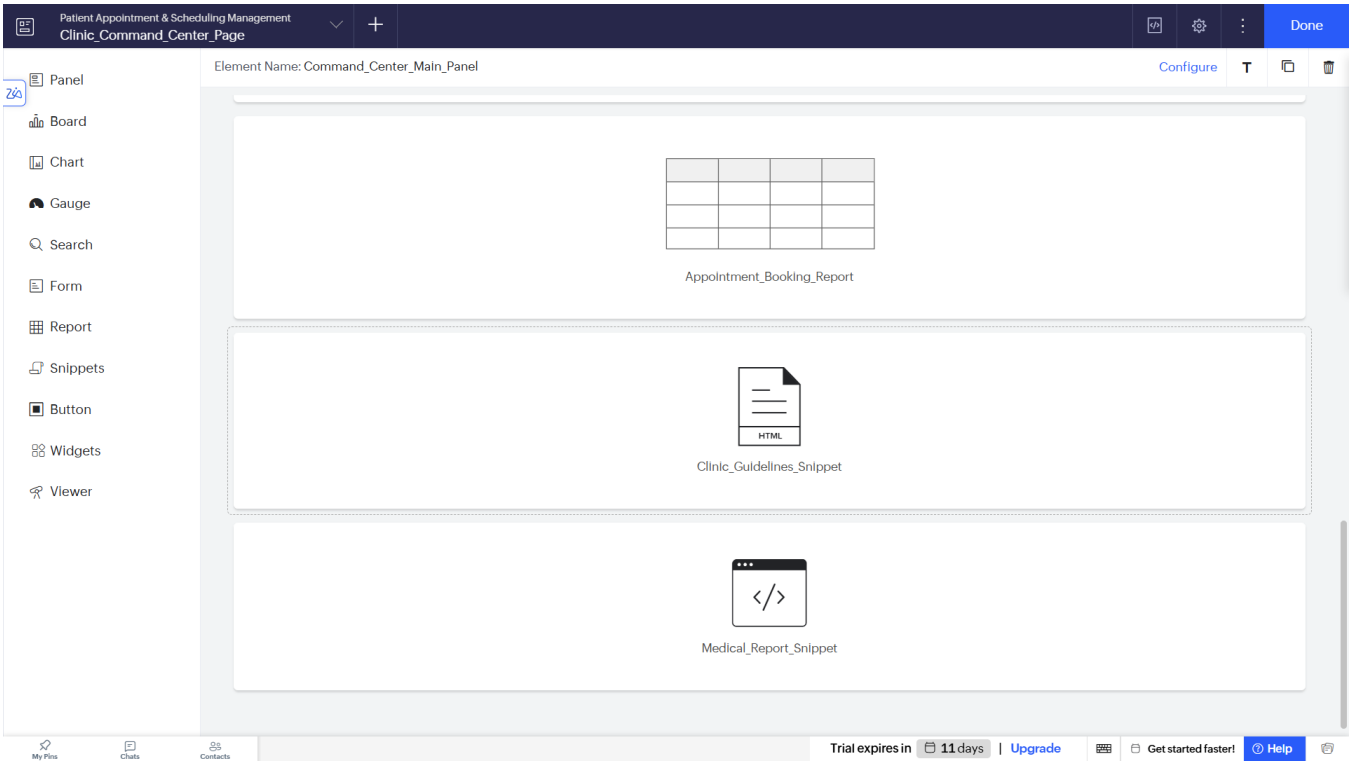

Figure 3. Page Builder: embedded Appointment_Booking_Report, Clinic_Guidelines_Snippet, and Medical_Report_Snippet.

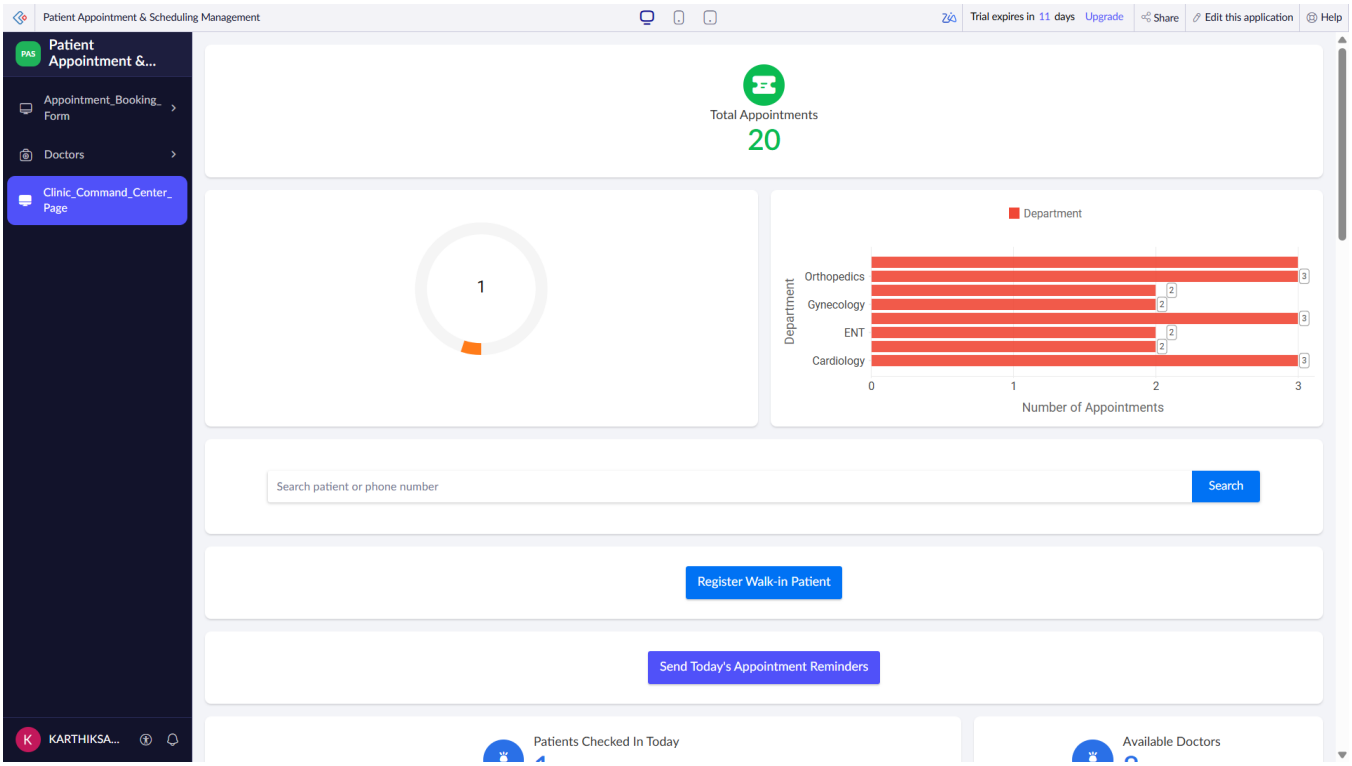

Figure 4. Live page: Total Appointments (20), gauge (1), department chart, search field, and action buttons.

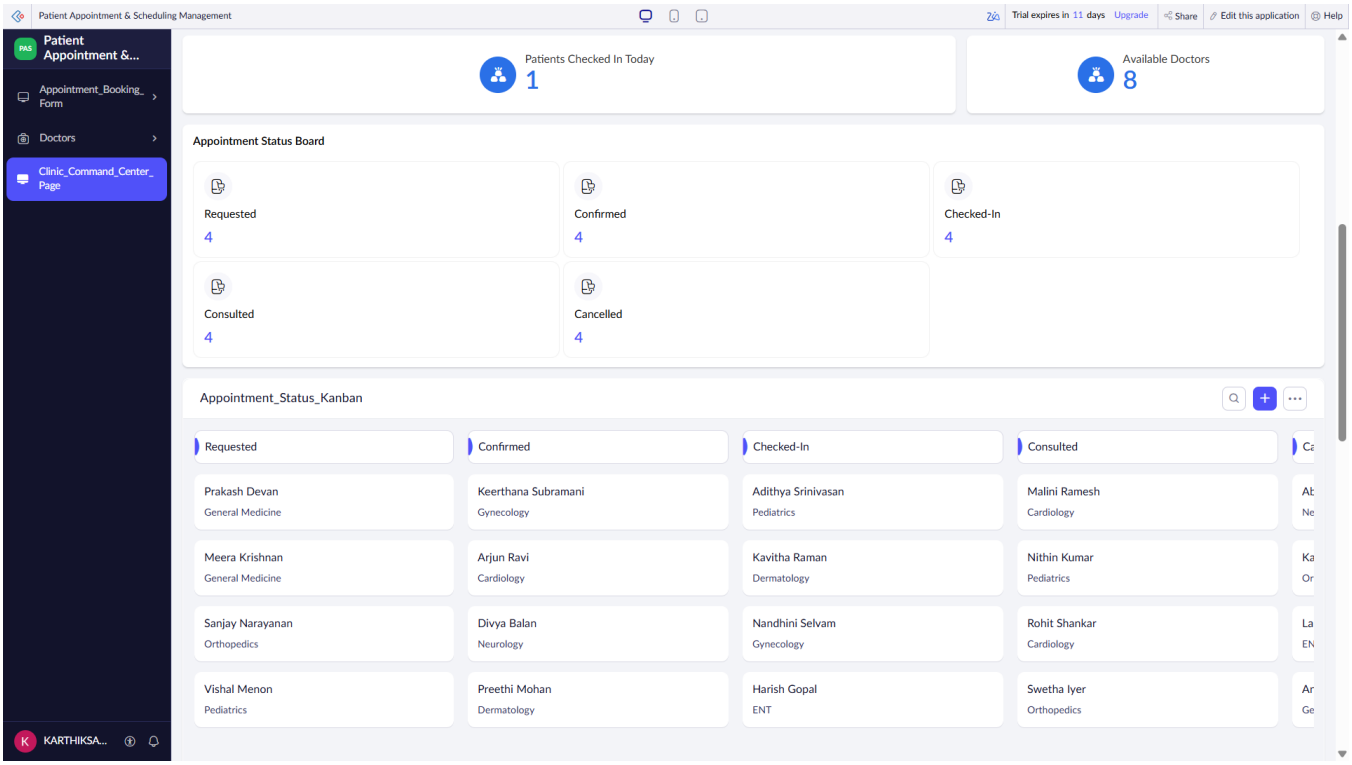

Figure 5. Live page: Patients Checked In Today (1), Available Doctors (8), five status totals, and Kanban cards.

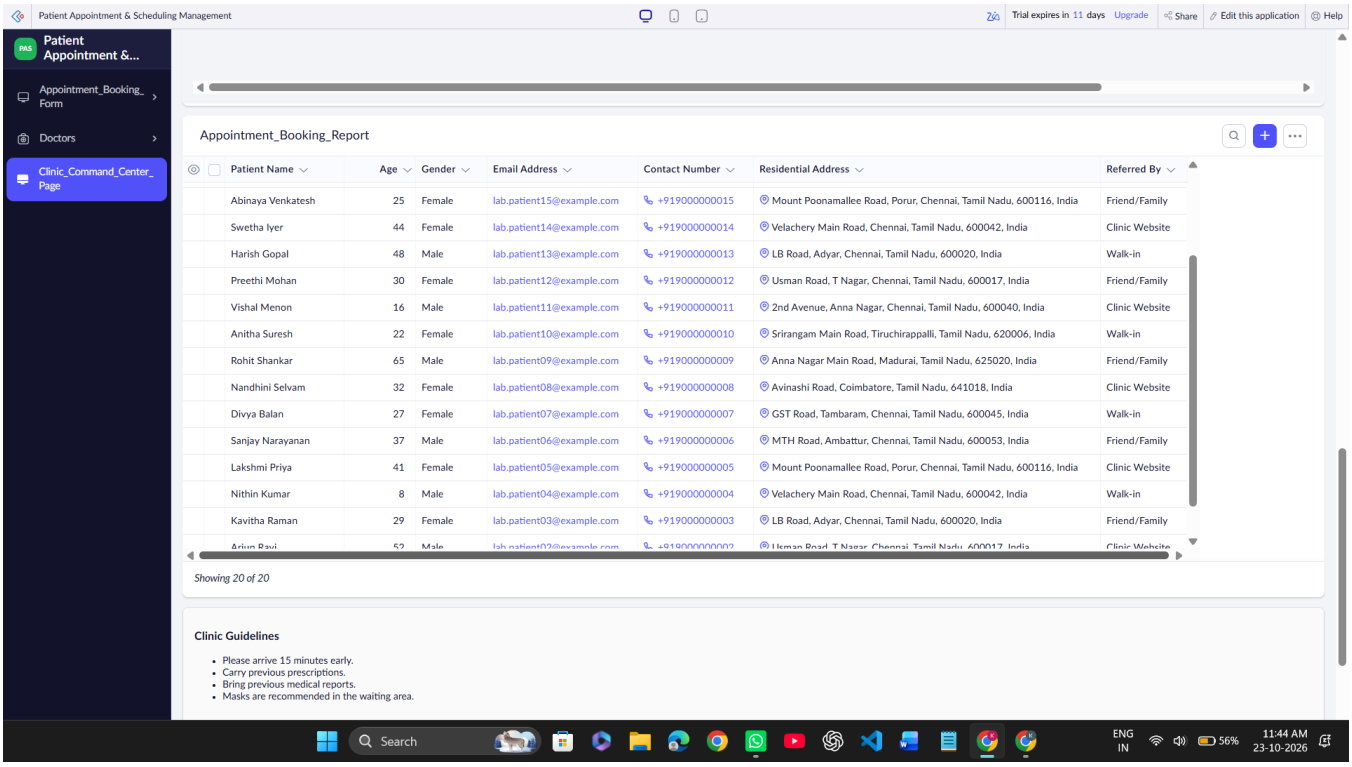

Figure 6. Live page: the embedded patient booking report and the clinic guidelines.

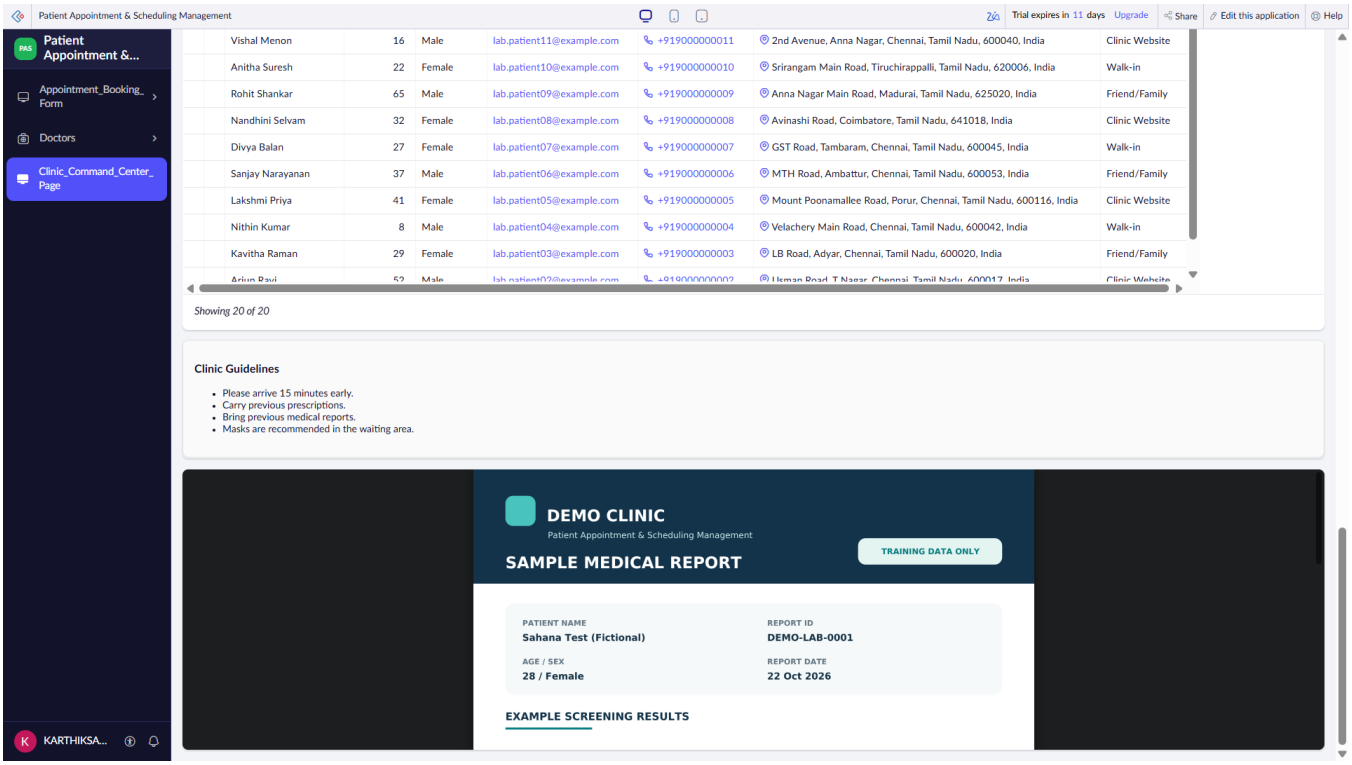

Figure 7. Live page: a fictional sample medical report displayed beneath clinic guidelines.

Result:

The **Clinic_Command_Center_Page** has been created and documented in Zoho Creator. The live screenshots show 20 appointments, appointment-status counts, department workload, search and quick-action controls, embedded reports, clinic guidance, and a fictional sample medical report. A separately embedded Form element and a separate Viewer element are not demonstrated in the submitted captures; button/search actions were not functionally tested by these screenshots.
